Battalion Commander's Mission Statement, Intent, and Vision

Mission Statement

Develop and deliver the best Military Police (MP) Soldiers and leaders, with unique MP professional Knowledge, Skills, Abilities, and Tools (KSAT) to successfully conduct Multi-Domain Operations (MDO) to enable maneuver commanders to shape, prevent, and prevail in large-scale combat operations (LSCO).

Commander's Intent

1st BN, 223rd RTI Military Police is a dynamic team of dedicated professionals who embody skill, talent, and innovation. We empower each other to take initiative and foster a shared understanding as we strive to shape the future of the Army. Our mission is to develop and deliver the finest military police Soldiers and Leaders, equipping them with the capabilities needed for success in the field. Together, we are not just leading the MP Corps; we are setting the standard for excellence in the Army.

Vision Statement

People are always the #1 Priority – We are a learning environment that enables the Military Police training mission and takes care of our team, students, family members and contributes to personal and professional growth. Our people are our greatest strength and our most important.

Readiness – Be Ready, agile, adaptive, expert professional Soldiers, and Leaders of character, capable of providing lethal, effective MP support to maneuver commanders in the dynamic execution of LSCO and prevailing against peer threats in contested Multi-Domain Operational environments. Winning Matters!

Battalion Commander's Philosophy

1. Purpose: This memorandum sets forth my Command Philosophy.
2. My philosophy of leadership is grounded in the Army Values and Warrior Ethos. Predicated upon several fundamental beliefs: Discipline, Integrity, Respect, Leader Development, Duty, Safety, Technology and Risk. These fundamentals provide the foundation for policies, which will govern how we operate. We will provide the best training, instructors, facilities, and equipment in order to develop agile, adaptive and resilient Soldiers and Leaders. I will provide you with strategic direction and my intent is to ensure excellence in accomplishing the battalions' mission.

Discipline: Discipline is the foundation upon which all “Good to Great” organizations are built. Without individual and unit discipline, our sense of order is challenged. A well-disciplined unit will have stamina, which will greatly influence training ISO civil and military ops. Our leaders must be laser focused on achieving set objectives.

Integrity: I fully rely on trust and confidence from you. Integrity extends beyond the simple requirement of honesty. It incorporates the ability to admit mistakes, avoid misleading others, and ensuring that everyone has a complete understanding of the mission. Our leaders will clearly identify all associated risks prior to the commitment of our most valued resource, our Soldiers. Integrity will be the operational arch we execute all missions.

Respect: Everyone, regardless of rank or position will be respected and recognized as an integral part of this team. Our leaders will never abuse their position of authority when dealing with subordinates. As leaders, we must insist and maintain high moral standards, but not at the expense of humiliating another Soldier. Leaders can be tough without losing their bearing. Over my career I have learned the value of listening rather than speaking. I encourage you to listen more and speak less. Train Soldiers to the Army standard while treating them with dignity and respect. The Army is a profession and not just a job.

Leader Development: Leader development will be one of my key functional tenets. Good leaders ensure that their subordinates can be functional in their absence. I envision a non-threatening leadership atmosphere in which mistakes are part of the teaching and learning process. All cadre and support personnel will be experts in their assigned MOS and make their own personal professional development a top priority. We should always be eager to mentor junior Soldiers and establish relationships built on trust and *Loyalty*.

Duty: We must accept responsibility for our own actions and those entrusted to our care. I expect each member of our team to maintain the highest levels of Technical and Tactical competency in his/her area of expertise. Leaders must ensure Soldiers are well informed, mentored, counseled, and afforded opportunities for professional and personal growth. Exemplary performance will be rewarded accordingly.

Safety: Everyone is a safety leader. It's imperative that we maintain, embrace and continually evaluate our safety standards. Shortcuts will not be tolerated nor condoned. Let's accomplish all assignments and tasks according to standard, safely. "Do it right" the first time. We can't afford to lose a single Soldier due to unsafe practices or reckless behavior, regardless if they are on or off duty. Risk assessments will be done before all training and any training having a residual risk above low will have to have my signature before training can start. Safety is heavily dependent on Solider leadership, training, proper supervision, and effective mentorship.

Technology: We must welcome and appreciate technological advances that holistically improve this organization's operational effectiveness. This organization can't be stuck in legacy approaches in solving today's demanding needs in the care and betterment of 1st BN (MP) / 223rd RTI and its members. Tasks that can be accomplished across approved DOD computer automation systems and applications will become the priority and the mainstay driver to my long-term vision and strategy for the regiment.

Risk: We cannot possibly do all that is requested by higher headquarters. However that does not relieve us of ever-increasing requirements. I expect, and encourage, NCO's to demonstrate initiative in choosing what we cannot accomplish. Then brief me on your decision to assign risk. If I think risk is being accepted in the wrong place I will tell you to reevaluate.

Conclusion: I am proud and honored to be your commander. You are members of an elite training organization. This chain of command when possible will delegate responsibility to the lowest organizational level capable for successful mission completion. This will increase teamwork, synchronization, morals, loyalty, and confidence as we mentor our junior leaders for levels of increased responsibility. We should genuinely care for the well-being of our Soldiers, and their families. This is a daily requirement regardless if "on or off" duty. Respect your place in history as a leader who paved the way so others can follow. Always Forward!

History of the Military Police Corps

The Military Police Corps is one of the youngest branches of the United States Army. It was officially established on September 26, 1941. Its traditions of duty and service establish its solid foundation as recognized professionals in our armed services. Soldiers have been performing police duties from the time of the Revolutionary War when these duties were assigned mainly to a mounted police force called the “Troops of the Marechaussee.” Soldiers in the Veterans Reserve Corps and Provost Corps performed military police duties during the Civil War. Military Police served with distinction in the Spanish American War, World War I, World War II, the Korean Conflict and Vietnam. As a result of their distinguished service in Vietnam, the Military Police Corps was designated as a combat support branch on October 14, 1968. Since Vietnam, the versatility of the Military Police Corps has made it a “Force of Choice” for use in low intensity conflicts and operations other than war in which our nation has been involved, such as Operation Urgent Fury, Grenada and Just Cause, Panama. During Operations Desert Shield and Storm, Military Police provided area security, conducted battlefield circulation control, and exercised custody over thousands of Iraqi prisoners of war. Since 1991, the Military Police have assisted in restoring hope to Somalia and upholding democracy in Haiti, maintaining order in war-torn Bosnia, as well as conducting patrols, operating checkpoints, and conducting investigations in an effort to keep the peace in Kosovo. After the terrorist attacks on September 11, 2001, Military Police Soldiers have been in constant action providing security and mobility support, police operations, and internment on the battlefields of Iraq and Afghanistan, and guarding our Nation’s enemies at Guantanamo Bay, Cuba. Our Military Police have developed their professional skills through realistic training and experiential learning during installation policing and corrections. With seventy percent of the Military Police force residing in National Guard and U.S. Army Reserves, our Military Police are critical operational reserves and are ideally postured to conduct Homeland Defense and Defense Support to Civil Authorities missions. As one of the most deployed branches of the service, the Military Police Corps will continue to be recognized as professional “Warrior Police” who are the Army’s experts at promoting law and protecting the force both at home and abroad across the range of military operations.

Military Police Creed

I am a soldier and proud member of the United States Army Military Police Corps Regiment.

I am Of the Troops and For the Troops.

I believe there is no higher calling than to ASSIST, PROTECT, and DEFEND my fellow soldiers, their families, and the basic ideals of our Constitution that guarantee our freedom and our American way of life.

I am always ready to help individual soldiers retain or regain their dignity.

I assist commanders in performing their missions, safeguarding their commands, and maintaining discipline, law and order.

I am proud of the Military Police Corps Regiment and fully understand the awesome responsibility given to all military police soldiers.

At the same time, I am humble because I know that I am a servant of my country and my Army.

To perform my duties properly, my honesty, integrity, and courage must be balanced by competence, alertness, and courtesy.

I know I am constantly in the public eye and my behavior sets the standards of excellence of my fellow soldiers.

To my unit, my commander, and myself, I promise sustained, just and honorable support.

To my country, the Army and my Regiment, I promise the skills of my training, my physical ability, my mental initiative, and my moral courage, for I am a soldier in the MILITARY POLICE CORPS REGIMENT.

The Army Song

“THE ARMY GOES ROLLING ALONG”

INTRO: March along, sing our song, with the Army of the free
Count the brave, count the true, who have fought to victory
We’re the Army and proud of our name
We’re the Army and proudly proclaim

VERSE: First to fight for the right,
And to build the Nation’s might,
And The Army Goes Rolling Along
Proud of all we have done,
Fighting till the battle’s won,
And the Army Goes Rolling Along.

REFRAIN: Then it’s Hi! Hi! Hey!
The Army’s on its way.
Count off the cadence loud and strong (TWO! THREE!)
For where e’er we go,
You will always know
That The Army Goes Rolling Along.

VERSE: Valley Forge, Custer’s ranks,
San Juan Hill and Patton’s tanks,
And the Army went rolling along
Minute men, from the start,
Always fighting from the heart,
And the Army keeps rolling along.
(refrain)

VERSE: Men in rags, men who froze,
Still that Army met its foes,
And the Army went rolling along.
Faith in God, then we’re right,
And we’ll fight with all our might, As the Army keeps rolling along.
(refrain)

Military Police Symbols

MP Colors:

There are a few theories as to how the Military Police Corps acquired the colors of green and yellow. 1. The uniform coats of the enlisted dragoons during the American Revolution were green with black trim and yellow buttons and buttonholes. 2. In World War I, the military police of the American Expeditionary Force in France wore a yellow and green cord on their hats. 3. The MP Corps has the same lineage as the Cavalry, both having originated with the Dragoons, thus the yellow of the Cavalry was retained. The green was taken from the staff of the Provost Marshal Branch. In any case, in 1921 the colors of green and yellow were officially adopted for the Army Military Police with green on the field of yellow. In 1941 the colors were reversed with yellow on green.

MP Crest:

3 Elements: **Shield**--Four Elements: The *Faces* are a war axe bound within a bundle of rods by a red strap. This was the symbol of authority in the Roman armies and was used to restore order and carry out punishments. The *Sword* represents military leadership and guidance. The *Key* represents security, both of personnel and vital military assets. The *Scales* are the scales of justice representing the values of impartiality and fairness.

Banner--"Assist, Protect, and Defend" *Assist*: embodies the mission of aiding the commander in maintaining order and safeguarding the rights of Soldiers and their families *Protect*: the MP combat support role of protecting fellow Soldiers and equipment on the battlefield *Defend*: represents the combat mission of resisting, containing, and defeating the enemy to secure forward support and command and control elements to sustain and win the battle.

Crossed Pistols: These are the 1806 Harper's Ferry .54 caliber pistols adopted as symbolic of the MP Corps in 1923. The banner surrounds the shield and is connected with the pistols to represent the unit of the Military Police Corps. This crest is surrounded by the Seven Army Values.

MP Badge:

Adopted in 1975. The badge is silver plated with an oxidized satin finish and has three distinct components: Shield--represents defense and the traditional police authority Eagle--perched on top of the shield represents alertness and vigilance Armament Crest--placed in the center replicates the crest of the official Department of the Army seal.

Military Police Disciplines

1. Police Operations:

- Perform law enforcement
- Conduct traffic management and enforcement
- Conduct criminal investigations
- Provide customs support
- Restore and maintain order
- Support border control, boundary security, and the freedom of movement
- Enable an interim Criminal Justice System
- Conduct host nation police training and support
- Provide support to civil law enforcement
- Conduct police engagement
- Employ forensic analysis or biometric identification capabilities
- Provide and evidence response team
- Provide straggle movement control

2. Detention Operations:

- Confine U.S. military prisoners
- Conduct detainee operations
- Conduct host nation corrections training and support

3. Security and Mobility Support:

- Conduct movement support to mobility operations
- Develop traffic regulation and enforcement plan
- Conduct enforcement of main supply route regulations
- Conduct a route reconnaissance
- Control movement of dislocated civilians
- Conduct resettlement operations
- Control movement of dislocated civilians
- Conduct population and resource control
- Conduct reconnaissance
- Conduct surveillance
- Conduct operational area security
- Conduct base/base camp defense
- Conduct critical asset security
- Provide protective service for selected individuals
- Conduct response force operations
- Secure lines of communication, supply routes and convoys
- Perform port and pier security
- Perform support area damage control
- Apply antiterrorism measures
- Implement physical security procedures
- Perform logistics security
- Perform crime prevention
- Provide military working dogs

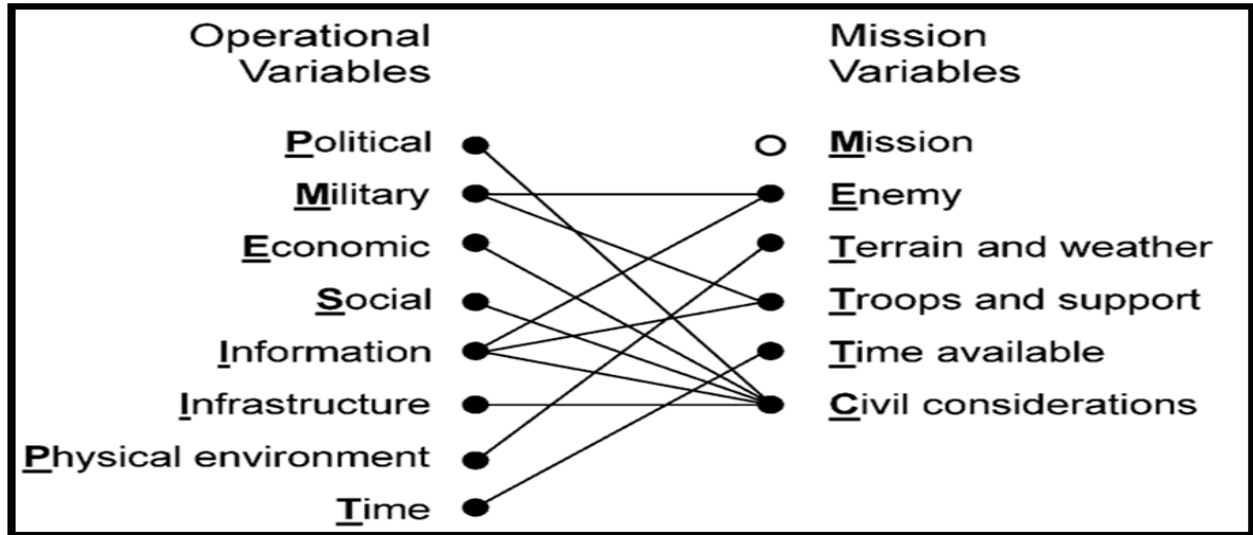

Military Police integrated function:

Police Intelligence Operations:

- Provide support to situational understanding
- Collect police information
- Conduct police information analysis
- Develop police intelligence products

Operational Environment (OE)

Incorporating OE training and discussion enables facilitators to develop critical thinking skills in our students. The **OE Variables** listed below provide the foundation for OE integration in our training. By defining these variables as they relate to the specific OE, you are defining the nature and characteristics of that environment.

Operational Security (OPSEC) Steps

A process of identifying critical information and subsequently analyzing friendly actions attendant to military operations and other activities to-Identify those actions that can be observed by adversary intelligence systems.

- Step 1: Identification of Critical Information
- Step 2: Analysis of Threat
- Step 3: Analysis of Vulnerabilities
- Step 4: Assessment of Risk
- Step 5: Application of OPSEC Measures

Army Learning Model (ALM)

Reference: TRADOC Pam 525-8-2

SME: Staff and Faculty Development Manager, 805-594-6462

The Army Learning Model is an adaptive, continuous learning model focused on providing quality, relevant, and effective learning experiences. ALM promotes outcome-oriented instructional strategies that foster thinking, initiative, and provide operationally relevant context. It features learning beyond the learning institution in a career long continuum of learning through the significantly expanded use of network technologies.

Analysis, Design, Development, Implementation and Evaluation (ADDIE)

Reference: TRADOC Regulation 350-70

ADDIE is a five phase process used to organize and guide all learning product development activities. ADDIE is the basis of a systematic, cyclic, iterative approach to conceive, plan, organize, and document all Army learning products. It supports the production of Army learning products to meet learning requirements, focus on critical job and/or function requirements, provide assessment and/or evaluation feedback, identify alternative learning methods, and gain efficiencies by providing information that helps to focus resources on critical learning requirements.

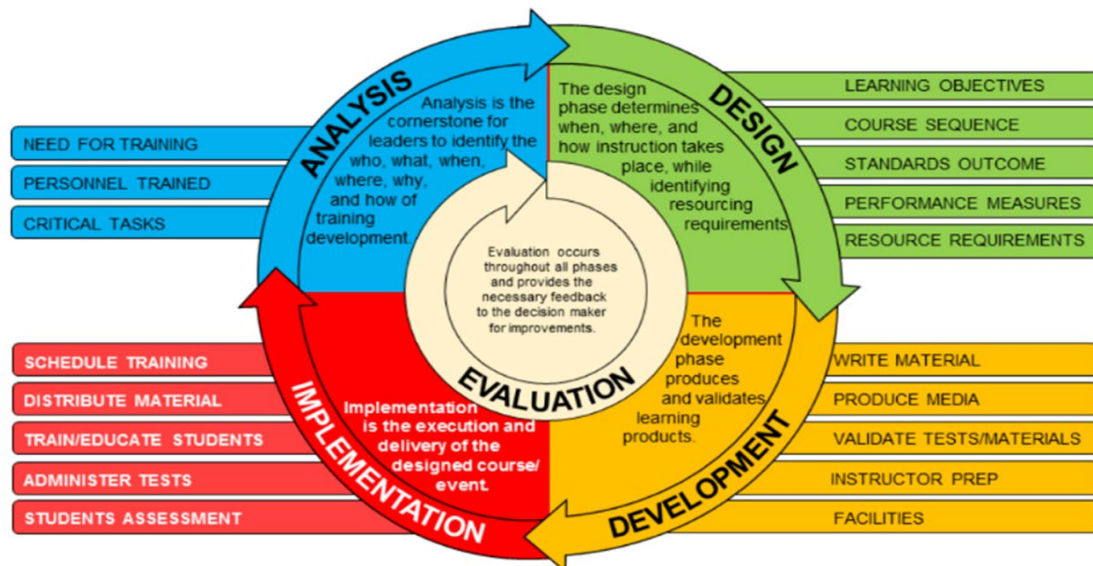

Figure 1-1. Analysis, Design, Development, Implementation, and Evaluation Process

Lessons Learned

(1) An implemented corrective action which leads to improved performance or an observed change in behavior; (2) The process of discovering, validating, integrating, and evaluating lessons.

Step 1: Collect – Identify and refine lessons, best practices and issues to fill information gaps.

Step 2: Analyze – Provide the BN with relevant lessons and best practices. Provide knowledge to support and facilitate the BN leadership's decision making. Provide knowledge to address operational needs and gaps.

Step 3: Disseminate – Give users the right products at the right time to support decision making (push). Provide information targeted to user requirements (pull).

Step 4: Archive – Provide user access to stored information for recall.

Troop Leading Procedures

1. Receive the mission

- a. WARNO
- b. OPORD

Leaders must also

- a. Assess the time available to prepare for and execute the mission
- b. Prepare an initial timeline for planning and executing the mission
- c. Conduct an initial planning-time analysis
- d. Determine the total amount of time to plan and prepare
- e. As planning continues, use the initial planning-time analysis to conduct a detailed time analysis
- f. Analyze the time his unit has available
- g. Prepare an initial timeline

2. Issue a warning order

3. Make a tentative plan

- a. Mission Analyses
- b. METT-TC

4. Initiate movement

- a. Can be executed at any time throughout the sequence of the TLP
- b. Movement necessary to continue mission preparation or to posture the unit for the start of the mission
- c. It can include movement to an assembly area, battle position (BP), or new AO, or the movement of guides or quartering parties

5. Conduct reconnaissance

6. Complete the plan

7. Issue the order

- a. The OPORD precisely and concisely explains both the leader's intent and concept of how he envisions the unit accomplishing the mission
- b. Omits unnecessary information
- c. Delivered quickly and in a manner that allows subordinates to concentrate on understanding the leader's vision and not just copying what he says verbatim
- d. The leader must prepare adequately and deliver the OPORD confidently and quickly to build and sustain confidence in his subordinates

8. Supervise and refine the plan

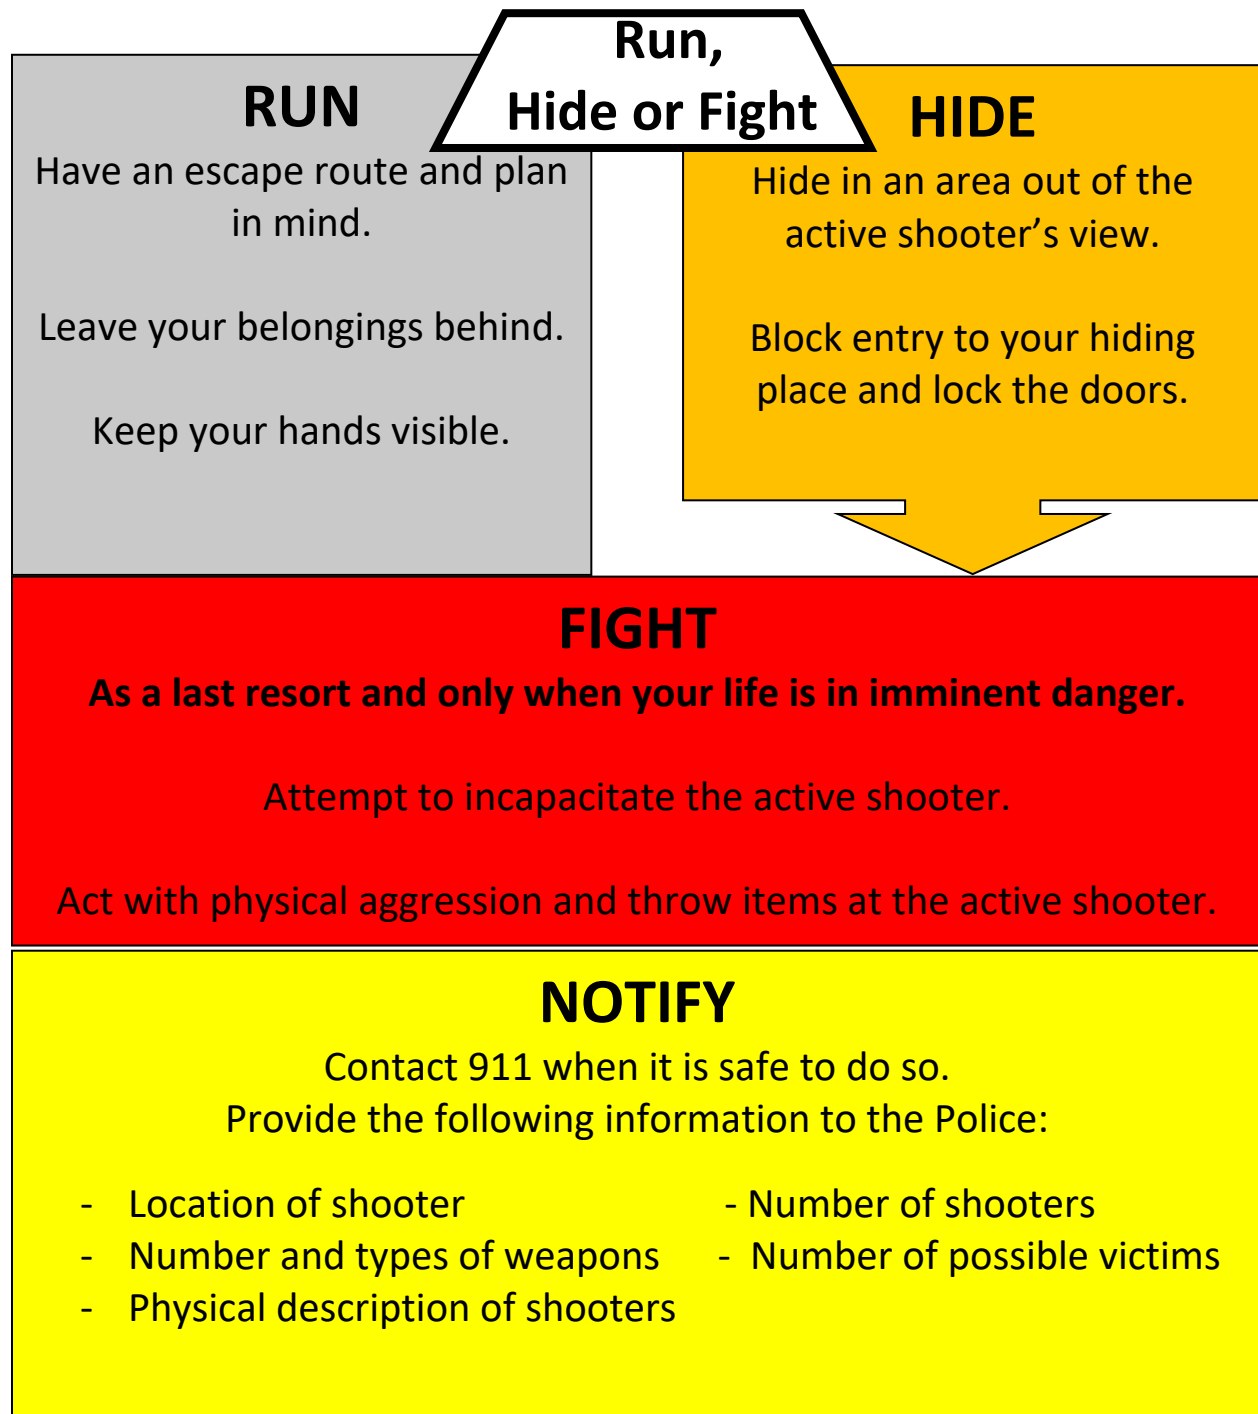

- a. Conduct numerous back briefs on all aspects of the company and subordinate unioperations
- b. Ensure the second in command in each element is prepared to execute in his leaders' absence
- c. Listen to subordinate's operation orders
- d. Observe rehearsals of subordinate units
- e. Check load plans to ensure they are carrying only what is necessary for the mission or what the OPORD specified
- f. Check the status and serviceability of weapons
- g. Check on maintenance activities of subordinate units
- h. Ensure local security is maintained

Development Courses

830-ASIV5	Military Police Investigator
A16H5A3 (SI2A) (MC)	Non-Lethal Weapons Instructor
7H-F18/ASID7/830-F13	Protective Services Training
7H-F17/830-ASIR6 (MC)	Special Reaction Team
L8AZR3P0710T0B	Traffic Management & Collision Investigation
MRT-C (UPENN)	Master Resilience Training
964-ARNG-RTA	Resilience Trainer Assistant
SP-SI/ASIIS	Suicide Intervention Training
RB8ASIST	Applied Suicide Intervention Skills Training
501-79S30	Career Counselor
300-EOL	Equal Opportunity Leaders Course
SHARP-CC	SHARP Foundation
4D-F8/600-F19	Small UAVs (RAVEN) Operator (NG)
964-ARNG-ISEC	Instructor Skills Enhancement Course
191-31B40-C46	SLC
191-31B30-C45	ALC
7H-31D/830-ASIH3	Conventional Phys Security/Crime Prevention
00-F5/000-F4 (MC)	Lessons Learned
9E-F71/920-F62 (SI5K/SQI8)	Foundation Instructor Facilitator Course (FIFC)
131-F13	Small Group Instructor Training Course (SGITC)
CLC-06	Combat Lifesaver Course
UPL	Unit Prevention Leader
ALERTS	Army Law Enforcement Reporting and Tracking System (Non-ATRRS, FLW)

Active Shooter

One or more subjects participating in a shooting spree, random or systematic with intent to continuously harm others. An Active Shooter may be a current or former employee associated with the US Army, such as a Soldier, Contractor, or Family Member, or an individual not directly associated with the Army.

Safety (Deliberate Risk Management)

References:

- a. ATP 5-19, Risk Management
- b. AR 385-10, The Army Safety Program
- c. TR 385-2, U.S. Army Training and Doctrine Command Safety and Occupational Health Program

SME: Regiment Safety Officer, 805-594-6497

Deliberate Risk Assessment Worksheet (DRAW): DD 2977

Key Notes:

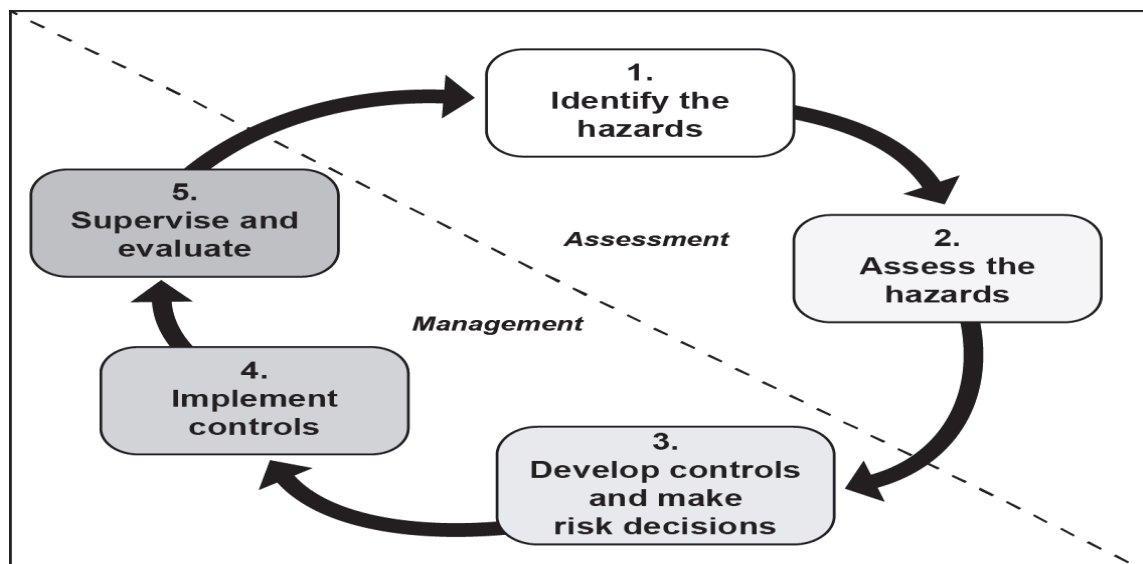

- a. Block 1 is the mission/task along with the date it will be conducted in yyyy/mm/dd format.
- b. Block 2 is the date the DD 2977 is prepared.
- c. Block 10 overall residual risk level is the highest risk level in Block 9.
- d. Block 13 is an ongoing block to be updated as required (this is an assessment of hazards and controls for ongoing operations or training).

Risk Level Acceptance Authority:

- a. LOW = Company Commander (all training and operations not governed by TR 585-2)
- b. LOW = Company Commander, RTI Operations Officer or Course Manager (all training governed by TR 385-2)
- c. MEDIUM = Battalion Commander or first LTC in the chain of command
- d. HIGH = Regimental Commander or first COL in the chain of command
- e. EXTREMELY HIGH = First General Officer in the chain of command

*****Changes in conditions require a reassessment of the hazards and controls*****

Assessment Steps and Management Steps

Risk Assessment Matrix

		Probability (expected frequency)				
		Frequent: Continuous, regular, or inevitable occurrences	Likely: Several or numerous occurrences	Occasional: Sporadic or intermittent occurrences	Seldom: Infrequent occurrences	Unlikely: Possible occurrences but improbable
Severity (expected consequence)		A	B	C	D	E
Catastrophic: Death, unacceptable loss or damage, mission failure, or unit readiness eliminated	I	EH	EH	H	H	M
Critical: Severe injury, illness, loss, or damage; significantly degraded unit readiness or mission capability	II	EH	H	H	M	L
Moderate: Minor injury, illness, loss, or damage; degraded unit readiness or mission capability	III	H	M	M	L	L
Negligible: Minimal injury, loss, or damage; little or no impact to unit readiness or mission capability	IV	M	L	L	L	L
Legend EH – extremely high risk H – high risk L – low risk M – medium risk						

Ranges

Assigned Duties:

- OIC
- RSO
- RTO
- Safeties
- Ammo NCO
- Control Tower (Commands)
- Medic/CLS

Range Checklist:

- Training schedule and DRAW completed
- Sign for range and range gear
- OIC/RSO Range Certification Cards
- Ammunition
- Range binder
- Score cards
- Bullhorn
- Set up and pre-stage range
- Range box to include clearing rods
- HAZMAT placards for movement
- Fire Extinguisher and shovel
- Pre-stage all equipment in vault prior to range day
- Port-a-Potty

M17 / M4:

- Magazines, marked by color scheme per firing sequence/tables
- Dry run firing table and tower commands with all safeties
- Dummy rounds (if required)
- Measuring wheel (if required)
- Chalk machine with flour/chalk (if required)
- CLP, rags
- Staple gun, staples, tape, markers, targets, chem-lights

Training Areas

MOUT House:

- Ensure the building is clean
- Ensure MOUT house is free of wildlife, i.e. snakes, bats

EST II/HEAT:

- Make coordination with Range Control
- Ensure systems are working properly (prior to training day)

CSTI Warehouse:

- Make coordination with CSTI
- Ensure the building is clean

Fight House:

- Make coordination with key holder
- Ensure the building is clean

Driving Course:

- Make coordination with Range Control
- Ensure the route is clear of debris
- Ensure the route is drivable during weather wet conditions

Cantonment/Range Areas:

- Notify Range Control/Post Operations and Front Gate on locations being utilized
- Ensure training does not interfere with daily operations
- Ensure Port-a-Potties are requested and located at training area as necessary

Pre-Course Planning

- RFMSS (approved)
- Training Schedules (TS)
- DRAWS completed / updated
- Range Control turn-in docs: TS, DRAWS, DA 581 prior to RFMSS approval
- Request: Equipment, linen, meals, vehicles, barracks, medics, DLC, and roles players for L&O and STX
- Vault (code)
- Visitors Binder & Student Leadership Binder updated
- Student folders, Go/No-Go Packets (Phase I & Phase II)
- Classroom clean, organized, reference table set up, visitor table set up, electronic equipment serviceable, emergency equipment serviceable (i.e. fire extinguishers and first aid kits)
- Draw: Equipment, linen, MREs, weapons + lubricants, paintball guns, airsoft guns, magazines, dummy rounds, targets, SINCGARS, vehicles (HMMWV, GSA), keys, ranges, and facilities
- PMCS MP duty gear (1 complete duty belt per student)
- PMCS/Dispatch MP Patrol vehicles and HMMWVs
- Barracks walk through, keys for Students and Instructors
- Chow Hall: Meals are correctly requested per Phase, correct Student and Instructor count (72 hrs for meal changes)
- Instructor counseling's
- Instructor DTS
- Role Players: Request through S-3 and SMR POC, confirm dates, how many, billeting and counselings

Roles and Responsibilities During Course

Course Manager / Senior Instructor:

- Ensure in-processing and out-processing is completed
- Assign Instructor additional duties
- Update Course Binder
- Receive & review all Student AARs daily
- Conduct instructor meetings daily
- Student counseling's (initial, performance, and event)
- Track course supplies and work orders
- Manage/counsel roles players (L&O and STX)
- Track Student flight arrivals and departures
- 1059s, certificates (build shells, comments, commandant's list, honor grad)
- Graduation to include guest speaker/VIPs and guests
- Perform daily AAR with staff on ground
- Ensure all End of Course Critiques are completed
- Reviewing DRAWs

Instructor PI / AI / OJT:

- Prepare for individual classes: Review lesson plan/POI, draw equipment, and set up training location
- OJTs will rehearse with the PI before class is given in front of Students
- Student counseling for assigned Students
- 1059 comments
- Track assigned additional duties
- Track Student OE briefs
- Complete Go/No-Go Sheet & DA 5286-1-R after evaluations
- Complete Observation Worksheets for each other, prior to end of course

Course Close-out

- All items are accounted for and turned-in.
- Training areas/ranges and buildings are cleaned and turned-in.
- Ensure all Students are coded correctly on ATRRS R-2 screen. The updated R-2 screen needs to be placed in the course binder and Student folders.
- Student records are completed and filed.
- Ensure all Instructor observation worksheets are completed and turned-in.
- Course binder is completed and closed-out.
- Ensure all recommendations for changes to the course are processed through the Proponent for review and approval prior to implementation.
